Re: Bandstand CPC Application  
Date: 1/27/23

Dear Committee Members:

Ms. Christie reached out to me and requested that I submit a broken down cost estimate of steps that would assist the Committee in possibly phasing the project over two years due to funding challenges.

I propose the following:

### Schematic Design Phase:

Architectural:	\$13,000
Historic Consult:	\$5,000
Structural:	\$5,000
Electrical Eng.:	\$2,000
Meetings: (Historic Comm., ARC, Conscom, SB)	\$1,500
Cost Estimating:	<u>\$3,000</u>
Total:	\$29,500

By doing the above approach the Town can see how much it will cost to complete the construction prior to approving more funds. We will have to fund in the future the additional approximate \$25,500 to complete the design and bidding effort.

Hopefully this is helpful. Feel free to reach out if I can be of any other assistance.
