You don't often get email from cahnfive@gmail.com. [Learn why this is important](#)

Dear Jaime,

I am excited to express how important I feel about restoring our playground, basketball courts and adding new pickleball courts. We moved to Orleans in 2013 and have found a sense of community through our pickleball group and hanging at the playground with grandchildren. Orleans is a wonderful town and we support any improvements to areas that can be enjoyed by all..

To be totally transparent, I am an avid pickleball player from April through Oct and would welcome any additional courts. The summers, as you know, sometimes have 40-50 players waiting to play on our current 4 courts during the week. In addition, I have tennis friends and understand they are frustrated with the cracks in the courts and welcome any improvements.

Regarding the playground, I believe everyone recognizes the need for upgraded equipment. This is a well used and popular meeting place for young parents and it is important that we keep up with the times and improve the playground.

Please let me know if there are any other ways to express my support on improving Eldredge Park.

Sincerely,  
Eileen Cahn
