To Jennifer Fountain <jfountain@town.orleans.ma.us>; Thomas DeSiervo <tdesiervo@town.orleans.ma.us>

Good afternoon, I am writing as I understand the Community Preservation Committee is considering a grant for the Eldredge Park Project. My husband and I have owned our home in East Orleans since 2012 and have increasingly enjoyed being a part of the Orleans community.

We have two young grandchildren who visit frequently, we are avid pickleball players and have frequent guests during the summer using the Eldredge Park facilities. Eldredge Park is an important resource —and it is long overdue for updating.

I love that the playground is so heavily used but it is now rundown. The pickleball courts have enormous use....we need more of them and they need to be re-surfaced to be safe. The tennis courts are also in high demand and require re-surfacing.

The other items in the plan, while not used ourselves, will be a great asset to the community and will assist with making the Eldredge Park and Field complex a place to be proud of.

We hope that you will support this important project.

Thank you,

Chris and Rick Emerson
20 Hayward Lane, East Orleans.
